How does television affect our lives? It can be very helpful to people who carefully choose the shows that they watch. Television can increase our knowledge of the outside world; there are high quality programmes that help us to understand many fields of study, science, medicine and the arts and so on. Moreover, television benefits very old people, who can't often leave the house as well as patients in hospitals. It also offers non native speakers the advantage of daily informal language practice. They can increase their vocabulary and practice listening. On the other hand, there are several serious disadvantages of television. Of course, it provides us

with a pleasant way to relax and spend our free time, but in some countries, people watch the 'You Tube' for an average of six hours or more a day. Many children stare at a television screen for more hours each day than they do anything else including studying and sleeping. It's clear that the youtube has a powerful influence on their lives and that its influence on their lives and that its influence is often negative.
